 - 10 Perimeter Institute
 - 13 Waterloo City Centre
 - 14 Waterloo Memorial Rec Complex
 - 15 WMRC Community Pavilion
 - 16 Waterloo Park
 - 17 Waterloo Public Library
 - 19 Waterloo Public Square

Safety Tips

Fitting a Helmet

Wearing a helmet properly can reduce the chance of head injury.

- A helmet that fits you will:
- Rest 2 finger widths above your eyebrows;
 - Fit closely to your chin, with no more than 1 finger worth of space;
 - Have side straps that form a 'V' around your ears;
 - Provide resistance when you yawn.

Hand Signals

Be sure to know and use proper hand signals.

Transit

ION Trains

You can bring your bicycle on board ION trains – single-seat, two-wheeled, non-motorized bikes only.

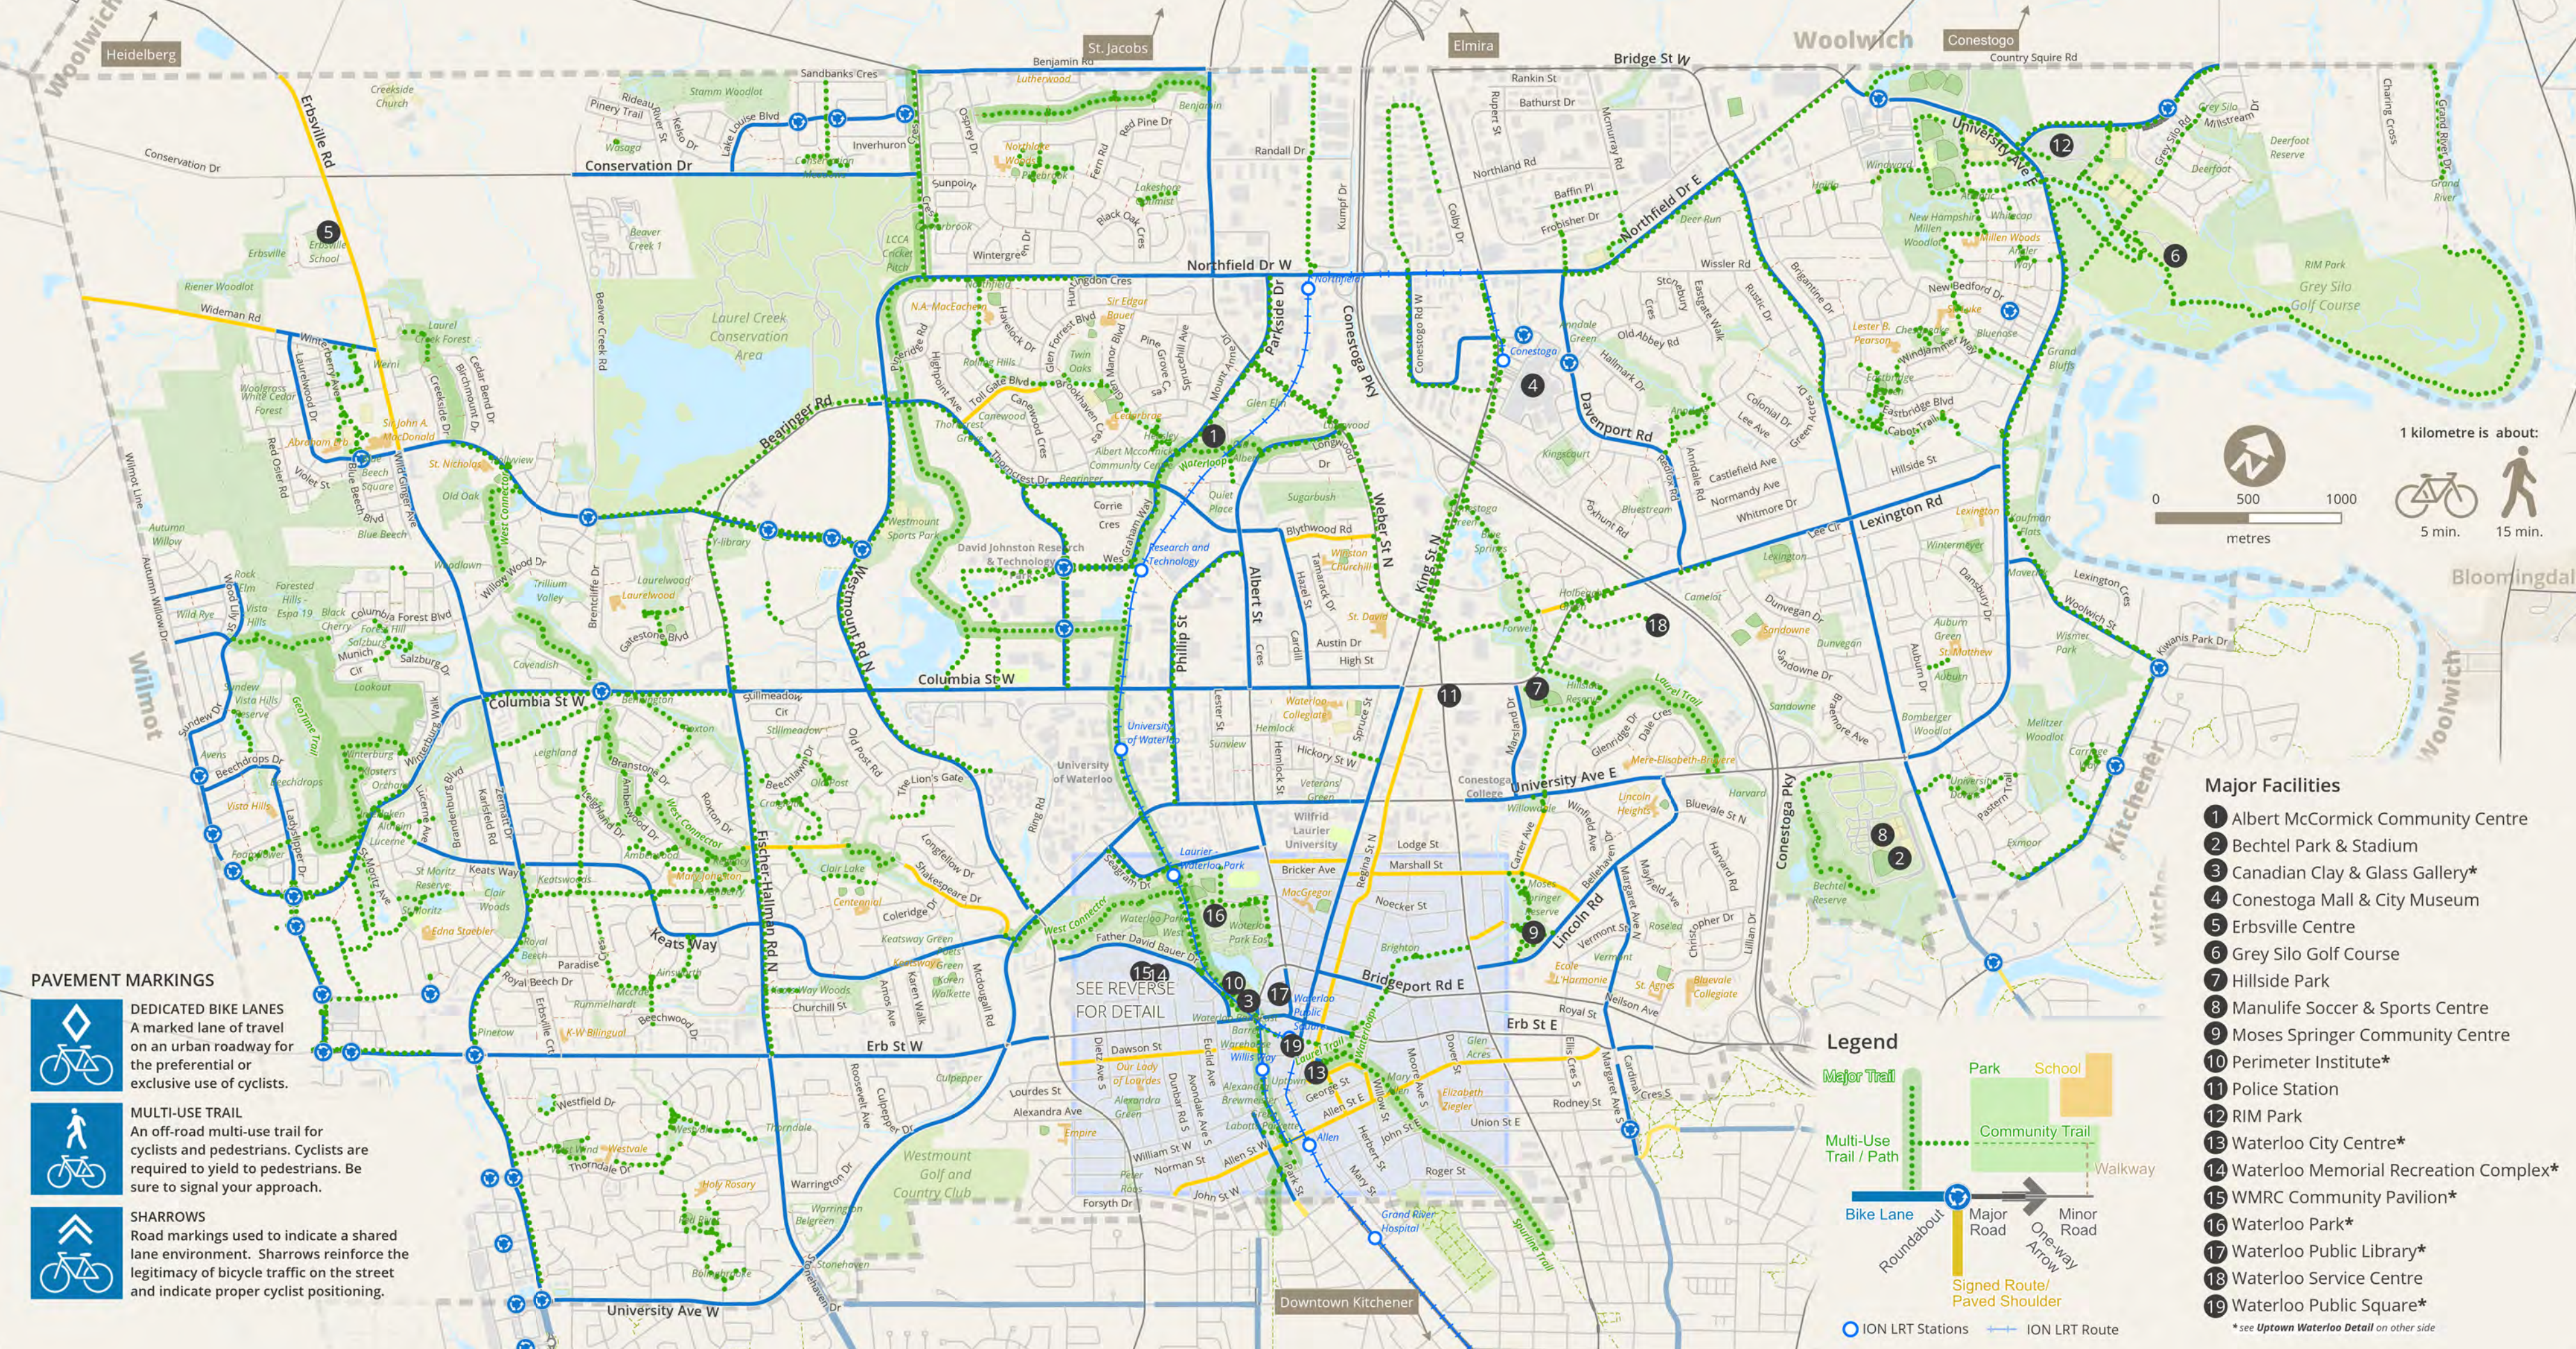

Board through the double doors, which are designated with a bicycle decal. Stand with your bike in the priority seating area and hold on to your bike at all times. Ensure your bike is not blocking aisles or doors.

One bike is allowed per priority seating area, for up to four bikes per train.

Passengers with bikes must vacate the priority seating area for persons with disabilities. If an arriving train has no bike spaces available or is too crowded with standing passengers, wait for a train with available space.

For more information, please visit www.grt.ca

PAVEMENT MARKINGS

-  **DEDICATED BIKE LANES**
A marked lane of travel on an urban roadway for the preferential or exclusive use of cyclists.
-  **MULTI-USE TRAIL**
An off-road multi-use trail for cyclists and pedestrians. Cyclists are required to yield to pedestrians. Be sure to signal your approach.
-  **SHARROWS**
Road markings used to indicate a shared lane environment. Sharrows reinforce the legitimacy of bicycle traffic on the street and indicate proper cyclist positioning.
