

City of Waterloo IPPW - Building Standards 100 Regina St. S., 2nd Floor PO Box 337, Stn. Waterloo Waterloo, ON N2J 4A8

2018 Energy Efficiency Certification Form

. ,	Address:		, ,bb.	ication Number:	
Each indi	ividual responsible for the subject	Building En	velope		Professional Seal:
building s	shall affix their seal and signature in				
the applic	cable box thereby certifying that	Signature		Date (YY/MM/DD)	
	to Article 12.2.1.1. of Division B, of	Signature		Date (11/MM/DD)	
	rio Building Code, the energy				
	of each building has been designed	Name and Ti	tle		
	be constructed to:				
	Exceed by not less than 17.5% the energy	A 11			
	efficiency levels attained by conforming	Address			
	o the ASHRAE 90.1-2010				
		City	Province	Postal Code	
	Exceed by not less than 13% the energy	-			
	efficiency levels attained by conforming				
	o 2011 NECB <u>and</u> SB-10, Division 2,	M 1 : 1	6 4		Professional Seal:
	Chapter 3	Mechanical	Systems		Trofessional Scar.
	Achieve the energy efficiency levels				
	attained by conforming to the ASHRAE	Signature		Date (YY/MM/DD)	
	00.1-2013 <u>and</u> SB-10, Division 3,				
	Chapter 2				
	Achieve the energy efficiency levels	Name and Ti	tle		
a	attained by conforming to 2015 NECB				
<u>a</u>	and SB-10, Division 3, Chapter 3	Address			
C)R				
	Achieve the energy efficiency levels				
	attained by conforming to Section 7 of	City	Province	Postal Code	
	ASHRAE 189.1-2014 (excluding				
	Sections 7.2.b, 7.4.7.3., 7.4.8. and 7.5)	,			
					Professional Seal:
		Electrical Sy	stems		i i ofessionai Seai.
In the ca	se of a shell building, the design	Electrical Sy	stems		i i diessionai Seai.
	use of a shell building, the design		rstems	Data (VV/MM/DD)	Trucssional Scal.
values fo	or the most stringent situation that	Signature	estems	Date (YY/MM/DD)	Trucssional Seal.
values fo	or the most stringent situation that to occur has been assumed.		estems	Date (YY/MM/DD)	Trucessional Seat.
values for is likely to This build	or the most stringent situation that to occur has been assumed. ding is exempt from compliance			Date (YY/MM/DD)	Trucssional Scal.
values for is likely to This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is:	Signature		Date (YY/MM/DD)	Trucssional Scal.
values for is likely to the this build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope	Signature Name and Ti		Date (YY/MM/DD)	Trucssional Scal.
values for is likely to This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9,	Signature		Date (YY/MM/DD)	Trucssional Scal.
values for is likely in This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9	Signature Name and Ti		Date (YY/MM/DD)	Trucssional Scal.
values for is likely to the cause to the cau	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential	Signature Name and Ti		Date (YY/MM/DD) Postal Code	Trucssional Seal.
values for is likely? This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating	Signature Name and Ti Address	tle		Trucssional Scal.
values for is likely? This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5	Signature Name and Ti Address	tle		Trucssional Seal.
values for is likely to the cause to the cau	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building	Signature Name and Ti Address City	tle		
values for is likely to the cause to be cause to the caus	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building,	Signature Name and Ti Address	tle		Professional Seal:
values for is likely to the cause to because to the cause	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less	Signature Name and Ti Address City	tle		
values for is likely to the cause to because to the cause	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building,	Signature Name and Ti Address City	tle		
values for is likely in This build because	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less	Signature Name and Ti Address City Other:	tle	Postal Code	
values for is likely to the cause of the cau	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions,	Signature Name and Ti Address City Other:	Province	Postal Code	
values for is likely in This build because the control of the cont	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where	Signature Name and Ti Address City Other:	Province	Postal Code	
values for is likely to the source of the so	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C,	Signature Name and Ti Address City Other:	Province	Postal Code	
values for is likely in this build because to be a second of the second	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, a warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or	Signature Name and Ti Address City Other:	Province	Postal Code	
values for is likely in this build because the control of the cont	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or storage room,	Signature Name and Ti Address City Other: Signature Name and Ti	Province	Postal Code	
values for is likely in this build because the control of the cont	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or storage room, A temporary structure,	Signature Name and Ti Address City Other: Signature Name and Ti Address	Province	Postal Code Date (YY/MM/DD)	
values for is likely in This build because the control of the cont	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or storage room, A temporary structure, A building intended primarily for	Signature Name and Ti Address City Other: Signature Name and Ti	Province	Postal Code	
values for is likely in This build because the cause of t	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or storage room, A temporary structure, A building intended primarily for manufacturing processing,	Signature Name and Ti Address City Other: Signature Name and Ti Address	Province	Postal Code Date (YY/MM/DD)	
values for is likely: This build because A ttl ttl A ttl	or the most stringent situation that to occur has been assumed. ding is exempt from compliance it is: A residential building within the scope of Part 9, A building with the scope of Part 9 hat does not contain a residential occupancy or electric space heating hat conforms to SB-10, Division 5 A farm building A heritage building, A building space which uses less han 12W/m² under peak conditions, A warehouse/storage building where he design indoor air temperature does not exceed 10°C, An unheated storage garage or storage room, A temporary structure, A building intended primarily for	Signature Name and Ti Address City Other: Signature Name and Ti Address	Province	Postal Code Date (YY/MM/DD)
